

CARE FOR THE SAFETY OF PEOPLE

WE HAVE TAKEN THE FOLLOWING SAFETY MEASURES:

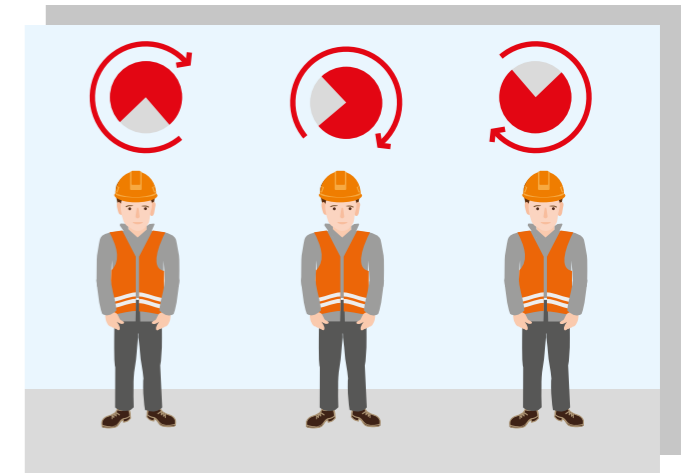

Entering/leaving the construction site

A vehicle intended for the transport of more than 9 people, including the driver – the number of passengers is limited to half the number of seats in a vehicle.

Organization of breakfast and lunch breaks – keeping a safe distance. The breaks should be organized at different times so that the teams do not meet each other.

Rotational beginning of work or introduction of shift work.

Daily disinfection of common areas with chemicals.

Limiting direct contacts, meetings and travels.
- videoconferences are recommended
- meetings and training courses using multimedia are recommended.

Where keeping the distance of 1.5 m is not possible due to the type of works being performed, the appropriate PPE should be used, in accordance with the decision of the site/works manager.

There must be disinfectants available at construction sites and in the offices. Do not forget about instructions and information posters.

SAFE PEOPLE ARE A GUARANTEE OF A SAFE INVESTMENT
